Treatment Rooms Etiquette

Our Therapist will collect you from the comfort of your bedroom prior to your treatment time and take you to your treatment room via the lift. A consultation form will be completed in the luxury of our Treatment Rooms. Our Therapist will make you comfortable in your Treatment Room where your relaxation begins.

Helpful Tips

Robes and slippers are provided to all our guests in your bedroom. Robes are recommended to be worn to treatment rooms to help aid in the relaxation. Give your therapist appropriate feedback about your comfort or any troubled areas.

Medical Conditions

We want you to feel as safe and nurtured as possible, therefore if you have a medical condition and are unsure of treatments then our Therapists are happy to offer guidance and assistance on suitable treatments.
